NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

Everyone seemed to be in unanimous agreement that the selection committee for the BCD's first Citizen of the Year award did an outstanding job in selecting Rev. Marshall Stewart for this honor. I personally, can think of no one any more deserving for the honor.

The best way I know to describe this man and what he has done for this community is to simply call him Hamlin's pastor. While there are others who belong to more organizations, head up more committees and are involved in more projects, I don't know of anyone who has ministered to so many people as this man.

He has reached far outside the confines of his flock at the Church of the Nazarene to serve as pastor to anyone in need.

We are most fortunate that this man's calling has brought him to our community and that he has shared his many talents with us.

It is kind of like waiting for someone to drop the other shoe—this waiting for the courts to rule on the House and Senate redistricting suits now pending after the bombshell the Dallas Court dropped Saturday on the Congressional redistricting suit.

Sometime this week or next the courts are supposed to rule on both the House and Senate redistricting bills. (It is possible that by the time this sees print the rulings will have already been made.) My guess is that they will throw out both of these and come up with their own plan like the court in Dallas did Saturday.

In the light of the ruling Saturday and an earlier one on financing our primaries, I hope that in the future our Legislators will realize that the courts are not going to let them get by with legislation that smells so strongly with politics.

All of these changes in the boundaries of the different districts must be getting a little frustrating for the candidates. Some of these men have been campaigning for a month only to find now that the area they have been working in is no longer in their district.

I have been trying to keep up with the news stories and comments on the recent court ruling on school finances and the thing that bothers me most about what I have read is the negative attitude being taken by nearly everybody on the subject.

In most cases, it seems to me, a great many people are trying to put words into the mouths of the judges that were not stated in the original ruling handed down in December.

Some seem to think that the court has ruled out the use of property tax in financing our schools and others seem to think that the only answer that will satisfy the courts will be for the state to take over the whole school operation and spend a set amount per pupil across the state.

It seems to me that if we are to use the court ruling to better the educational system in Texas, and that is clearly the intent of the court, then we must come up with a solution that meets the ruling of the court and at the same time offers something better for our children.

And spending x-number of dollars per pupil for every student in the state certainly will not offer anything better for our children. In too many cases it would only make our education system less responsive to the needs of our children.

At the present time the only system that I can see that might satisfy the court and at the same time better our educational system would be to replace our current minimum foundation program with a state

CITIZEN OF THE YEAR — Rev. Marshall Stewart receives congratulations from Melvin Scott, left, following the banquet when Rev. Stewart was presented the first annual Citizen of the Year award. With them are their wives, Mrs. Stewart, and Mrs. Scott, right. Scott was chairman of the committee making the selection and made the presentation during the banquet.

Rev. Stewart Named Citizen of the Year

Rev. Marshall Stewart received a standing ovation as he was named recipient of the Hamlin Board of Community Development's first annual Citizen of the Year award at the Annual Banquet held here Thursday evening.

Rev. Stewart, pastor of Church of the Nazarene, was cited for his personal concern for each citizen by Melvin Scott, chairman of the selection committee, in presenting the award.

In accepting the award, the Rev. Stewart said, "I don't feel like I've made much of a contribution to the people here, but I know they've made a tremendous contribution to us. I love this community, every phase of it."

The Rev. Stewart said "The slogan, 'America, Love It or Leave It,' is how I feel about Hamlin. He said his philosophy of life is "to know less and to do more." He went on to say that "we are living in a most enlightened age and are doing less."

Charles Reed, incoming president of the BCD presented John Scarborough, the retiring president, a plaque in appreciation for his service to the organization during the year.

In a brief review of the work of the BCD during the past year, Scarborough mentioned the successful clean-up campaign and several retail trade projects carried out during the year. He also called for the organization to recruit 100 new individual members during the coming year.

He pointed out that if the organization was to serve the people of this area and reach its goals it must become the responsibility of more of the citizens. And to do this it needed at least 100 new members.

Scarborough also introduced

the other new officers. They are Melvin Scott, first vice president; Lee Hastings, second vice president; Donald Young, treasurer; and Mrs. L. C. Bonds, executive secretary.

Featured speaker for the evening was Rev. Kenneth Wyatt of Tulsa, a Methodist evangelist and noted western artist. He kept the capacity crowd laughing with his jokes and emphasized his five conclusions about people with humor.

In pointing out these conclusions about people he said

Omar Burleson Announces for Re-election

Washington, D. C. — Congressman Omar Burleson, who represents the 17th District of Texas in the United States House of Representatives, has announced for re-election. He has filed for a place on the ballot in the Democratic Primary Election on May 6, 1972.

Burleson was elected to the 80th Congress from the 17th District and has been re-elected to each succeeding Congress. He is a member of the Ways and Means Committee, considered to be the most powerful and prestigious in the House.

COFFEE FRIDAY—

Mothers March Set for Sunday

Friday has been named Coffee Day for the March of Dimes in all Hamlin restaurants and drug stores.

The Mothers March will be held Sunday afternoon with Mrs. John Ferguson Jr. as chairman. Volunteers will meet at 1:30 p.m. at Farmers and Merchants National Bank to receive assignments. They will return to the bank after completing their street.

Assisting in the drive will be representatives from the women's clubs, high school girls and members of the Hamlin Chapter of Future Homemakers

that organizations like the BCD could do well to remember them. His conclusions are that: 1. People are generally better than they appear to be; 2. Most are potentially greater than they are in daily life; 3. People's greatest fear is of responsibility; 4. The greatest cause of failure in communities and individuals is a lack of imagination; and 5. Most people let other people do their thinking for them.

In summation, Rev. Wyatt gave these ABC's for better living: A. Act promptly; B. Be courteous; C. Cut the worry; D. Deal squarely; E. Eat what is wholesome; F. Forgive and Forget; and G. Get religion.

In closing he said, "This is a great organization and a great town, but the building job is not finished."

Rev. Johnnie Williams served as master of ceremonies for the evening and the Hamlin High School Stage Band, under the direction of Tim Jones, provided the entertainment.

Following a western theme, the decorations for the tables was provided by the women of the Woman's Literary Club, Business and Professional Woman's Club, Beta Theta, Xi Gamma Pi, Jaycee-ettes and Garden Club.

Out-of-town guests were introduced from Abilene, Anson, Stamford, Sylvester, McCaulley and Merkel.

MOVING TO CAMERON—

Dr. Perrin to Close Practice Here May 31

Dr. E. D. Perrin, physician here since 1949, announced this week that he will be closing his medical clinic office in Hamlin by May 31. He and his wife will be moving to Cameron where he will open his private practice July 1.

Dr. and Mrs. Perrin will be moving to the town where he grew up and where his parents, Mr. and Mrs. E. A. Perrin, have lived since 1934. Mr. Perrin is mayor there.

In releasing his statement to the press, he said that there were two new hospitals in Cameron built to meet Medicare regulations. He cited the continuing demands imposed by Medicare as primary reasons for his leaving Hamlin. The struggle to meet the requirements of Medicare in the operation of the local hospital make the opportunity in Cameron more practical, he said.

Dr. Perrin said that he is not fighting Medicare but only the regulations that are forcing small hospitals out of existence.

"Our decision to leave Hamlin after 23 years of practice has been carefully made after 18 months of deliberation." He feels that his move will help the Hamlin community realize that only an entirely new hospital supported by taxes from a hospital district can operate under Medicare regulations and specifications.

He states further that the community needs to understand that the

facilities of all American Medical Schools have been doubled, in order to double the annual graduation of medical doctors. The increased number of doctors will be graduating before 1975. It is his opinion that only a new hospital and clinic built to Medicare specifications and finished in time for the increased number of available new doctors will secure adequate doctors for Hamlin.

Mrs. Perrin, a registered nurse, who has been working at the hospital in order to meet the regulations of Medicare with regard to registered nurses on duty, will not continue to work in Cameron.

Dr. Perrin's office in Cameron will be in a new clinic now under construction. The building will accommodate offices for three doctors. He will not be in a group practice. The clinic is located by a Catholic hospital built only 10 months ago.

His sister, Mrs. Kathleen Hobson, now of San Antonio, will be his office manager.

The partnership of Dr. Perrin, Dr. E. J. Hawkins and Dr. M. L. Smith was formed in 1949. Dr. Perrin and Dr. Hawkins came to Hamlin in the spring and Dr. Smith joined them in December.

Dr. Smith said Wednesday that he has made no plans at this time. Dr. Hawkins' day out of the office is Wednesday and he could not be reached for comment at press time.

Homemaking Class Discusses Keeping Classes Interesting

The HERO-FHA class unit of the Hamlin Chapter, Texas Association of the Future Homemakers of America had a meeting on how to keep class interesting. There were several teachers present Friday morning in the Clothing Laboratory of the Homemaking Department of the Hamlin High School.

The following are a few questions asked by the students and answered by the teachers:

1. How do you think films will help a student or the class? One teacher answered that she liked the idea but it is very seldom that she could get the films at the exact time they were needed. Another said that he definitely did not like films because he could teach more in less time by using the chalk-board.

2. Do you think that group discussions will help? The three teachers were in strong agreement on this one.

3. Will field trips create interest? The students and the teachers think so, but there is no place locally that has not already been visited.

The teachers serving on the panel were Mrs. Frank Codington, history and civics; Mrs. Charles Scott, English; Mr. Barney Popnoe, science; and Mrs. Joe W. Carter, homemaking.

An important message for people who prepare their own income tax returns.

Maybe you've been cheating yourself all these years.

Every year, between January and April, millions of people sit down to do battle with Uncle Sam. Some are "self styled" accountants. Others think they can save a few dollars doing it themselves — so why not.

The sad truth is, however, no matter what their reason was for starting, many of them end the same. On the short end.

You see, when it comes to income taxes, amateurs should depend on H&R Block. We have all the facilities to help you make "income tax time" a pleasant experience. To begin with, H&R Block now has over 6,000 conveniently located offices manned by thousands of specially trained personnel who are anxious to help you. They'll sit you down over a free cup of coffee and show you some things about your income tax that you might never have known existed. For example, do you know

all about deductions for child care or casualty losses? And maybe you aren't aware that if your income increased last year, you may be able to save tax dollars by "income averaging."

Well, when it comes to income taxes, H&R Block is aware of just about everything because we're a company that eats, sleeps, and drinks tax returns 365 days a year.

Yes, maybe you can save a couple of bucks by doing your own return but it really may be costing you a lot more by not having your return done by H&R Block.

Preservation of family unit needed for nation to survive

SAN ANTONIO, Texas (Spl.)—The family unit must be preserved for the U.S. to survive as a nation, a psychiatrist at The University of Texas Medical School at San Antonio told high school youths attending a state-wide meeting here.

"The family has already begun to disintegrate with teenagers moving about from one place to another, mothers working and fathers being around very little," Dr. James N. Turnbull told a meeting of the Texas Branch of the Future Business Leaders of America.

Even greater pressures will be exerted on families in the next 10 to 20 years as the huge gaps in knowledge and communication grow even greater, he said.

"Powerful arguments will be heard that the family is finished," said Dr. Turnbull, assistant professor of psychiatry at the San Antonio Medical School.

"But I don't share the pessimism of the doomsters," he said. "I think the family not only is coming back as a viable unit but is essential for our survival as a nation."

A Canadian who received his medical degree from the University of London, Dr. Turnbull warned the young people that strong arguments will be heard in the future for parents to give up the responsibility for rearing their children and leave the job to someone else.

Groups such as Women's Lib, for example, he said, will make a pitch for child care centers where youngsters can be dumped and brought up by somebody else.

"But this isn't a good thing," he said.

FORTY-THREE YEARS AGO
(February 8, 1929)

Friday evening in the basement of the Methodist Church, the Hamlin Chamber of Commerce held its annual banquet, which proved to be an outstanding meeting in many ways. More than 100 business men and farmers were present and all were enthusiastic and eager to assist in any movement that may be launched for the betterment of our town and country.

The quarterly meeting of the Jones County W.M.U. was held Tuesday in the First Baptist Church.

Officers reports inspirational talks and music formed the program for the day.

About 75 women were in attendance with representatives from Abilene, Stamford, Anson, Lueders, Tuxedo, Fairview and other neighboring churches.

Despite the lull in building that must come during the winter months, several new houses in our city are being erected. During the past year more substantial homes have been built in Hamlin than ever before in the same length of time since the first building of the town. We understand other new residences are to be started soon, and no doubt, 1929 will be the banner building year for Hamlin.

Mrs. R. D. Moore's handsome brick home on Union Avenue is now nearing completion and will soon be ready for occupancy.

John Howard is completing a beautiful brick home on Hope Avenue, and George Howard has just completed a modern duplex cottage on Hope Avenue, and is also completing a modern brick home which is located on this street.

R. Y. Barrow is erecting a pretty stucco cottage of Spanish architecture on Alamo Street just east of the High School building. This house is located on the D. J. Payne block where three other pretty houses have recently been built.

G. F. Boyd is building a pretty stucco house, Spanish type, on his lot on Jackson Avenue, which will add much to the appearance of that section of town.

There are other new buildings under construction that we failed to get a report on, but will give them later.

Crow Bros. Grocery Store was a victim of burglars again during the past weekend. This time the thief took the safe and battered it open only to find papers valuable only to the owners and no money. It is believed that the store was entered sometime after 4:00 a.m. Sunday as it was discovered when the business was opened Sunday morning at 7 a.m.

The brothers, Evert and Delma Crow, have been burglarized several times during the past year.

The thief or thieves apparently took a pickup truck from a service station to use in the robbery since the pickup with the safe still in the back was located about 4 p.m. Sunday east of the underpass on Highway 57. The valuable papers were still in the safe.

C. L. White was elected Fire Chief by the Hamlin Volunteer Fire Department at the annual election of officers held Monday evening at the Mid West Cooperative Oil Mill Guest House.

Mr. and Mrs. A. L. Carter of Haskell have purchased Lee's Drive Inn and will operate the business as Carter's Dairy Cream. Mr. and Mrs. O. R. Lee, owners and operators of the drive in for the past 11 years, have not made definite plans for the immediate future but they will remain in Hamlin.

"We need you in '62" Robert Fowler told the crowd assembled for the Hamlin Board of Community Development annual banquet as he accepted the presidency for the coming year. He urged members to continue their support of the organization in recruiting new members taking part on projects and working for the kind of community to be proud of. He summarized by saying "Let's earn the right to say our community is a good place to live."

The BCD office will be open all day Saturday for the purpose of issuing Poll Tax Receipts it was announced this week. The Hamlin Jaycees, who are working with the BCD, will be down town urging people to go around to the office and become eligible to vote in this important election.

When the fire siren sounds to Hamlin next Thursday, January 31, at 7:00 o'clock p.m. it won't be the signal for a fire — Neither will it be a false alarm! Not unless, of course, some people consider the increasing incidence of infantile paralysis a false alarm.

Final plans for operation of the Red Cross bloodmobile unit to Hamlin on Wednesday, February 6, were being made this week by Mrs. W. H. Gilbert, community chairman, and her workers.

Monthly singing for Haskell and Jones County singers will be held Sunday afternoon at 2:00 o'clock at the Swenson Avenue Baptist Church in Stamford, officials of the group announce.

The public is invited to attend the afternoon songfest.

Aspermont, our neighbor city 19 miles to the north, continues to be plagued by water shortages as the drouthy weather continues to keep its city lake on the dry side.

Effective last Saturday water users in the town were to be billed at an upped rate for water that was to be trucked in from a lake near Swenson. A flat rate of \$7 per 1,000 gallons was to be in effect for the trucked-in water.

Many more words of comfort await you in the Bible and in the Church as His words are proclaimed from the pulpit. We invite you to attend church this week. You will be glad you did.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Rolling Plains PCA Makes Over \$41.5 Million In Loans

Farmers and ranchers from a 17-county area borrowed more than \$41.5 million from Rolling Plains Production Credit Association in 1971, according to J. L. Hill, Jr., the association's president. This amount represents loans to 981 stockholders, he said.

Loan volume for 1971 is up \$3.7 million or 10 percent over the same period a year ago, Hill reported.

Rolling Plains PCA is one of 34 Texas associations that

together loaned more than \$942 million to the state's farmers and ranchers in 1971, he said.

The association, with offices in Stamford, Childress, Matador, Munday and Spur, makes agricultural loans in Briscoe, Childress, Collingsworth, Cottle, Dickens, Donley, Foard, Hall, Hardeman, Haskell, Jones, Kent, King, Knox, Motley, Shackelford and Stonewall counties.

Agent Warns Stockmen of Symptoms of Grass Tetany

If you've noticed beef cows in your herd acting rather nervous, irritable and belligerent, there's a good chance they are suffering from grass tetany.

"The condition results from a mineral imbalance and especially occurs during cold, cloudy wet weather," notes County Agent Kirby Clayton. "If it is prolonged, muscular spasms, convulsions and death will occur."

Grass tetany often affects cows in late pregnancy or those nursing calves. During that time cows give up a great deal

of their nutritional intake and reserves to support their calves. Unfavorable weather conditions put additional strain on the cows.

"A lack of magnesium and calcium in the animal's diet is the main cause of grass tetany," points out Clayton. "A low energy diet also contributes to the condition."

To overcome conditions that may lead to grass tetany, the veterinarian recommends the use of mineral blocks containing magnesium oxide and supplemental feeding that will provide cows with additional energy.

Additionally, Clayton urges livestock owners to reduce the animals' exposure to inclement weather as much as possible and to maintain some legume pastures. Legumes contain up to three times as much magnesium as most grasses.

"If animals are acting in an unusual manner or appear to be under stress, it's always a good idea to call a veterinarian at once," suggests Clayton.

Several Burglaries, Thefts Cleared With Arrest Here

Four burglaries and five thefts, some dating back to 1970 were cleared up by the Hamlin Police Department when a 14-year old boy was questioned. Local police picked up the youth Jan. 20 when he was walking in an alley at night. Two screwdrivers were found in his possession.

He was later picked up for questioning at junior high school, according to Police Chief Ed Wheat. The suspect signed statements clearing up several incidents including burglaries at Gonzalez Barber Shop and Mrs. Baird's warehouse.

The boy was held in Anson County Jail until he appeared before Judge Leon Thurman Tuesday. The judge sentenced him to Gatesville State School for boys until he reaches the age of 21.

Cindy Bryant On Tech Honor Roll

Cindy Bryant, a first semester senior at Texas tech University this spring, was named to the school's Honor List by the Dean of Arts and Sciences.

Her grade point average for the fall semester was 3.0. She is the daughter of Mr. and Mrs. John C. Bryant.

AUSTIN — Another federal court ruling — voiding the new political filing fee law — jarred state officials and posed the possibility of an emergency special legislative session soon.

While an earlier decision invalidating the old filing fee law was still on appeal to the U. S. Supreme Court, three judges in Dallas knocked out a back-up statute passed last year.

If rulings stand, Texas will be without any method of financing its May and June party primary elections. The filing deadline is February 7.

In the original 1970 decision on the old law, fees were declared unconstitutional because they were used for

revenue-collecting and were an absolute requirement to get on the ballot.

Legislators in 1971 passed a law effective January 1, 1972, setting maximum filing fees amounting to four percent of a candidate's term salary. Another provision provided for getting on the ballot by pauper's affidavits of inability to pay, together with a petition signed by 10 percent of area voters. This, too, was invalidated by a federal court last Thursday.

State is now enjoined from implementing any fee system for financing the primaries.

have expressed hope courts will stay the latest order until the Supreme Court rules on the first case.

Circuit Judge Homer Thornberry advised party county and state executive committees to make new rules for carrying out the latest ruling.

Since there is no authority for state financing of the primaries, a special legislative session apparently would be necessary to provide for that before May. One suggested alternative is voluntary contributions to pay the election bill — an estimated \$1.5 million statewide.

OIL ALLOWABLE DELAYED — Texas Railroad Commission decided to delay setting the February oil allowable pending further study.

Major purchasers, the commission explained, report inventories are higher than needs, although crude stocks are at a four-year low mark.

Seven of 14 major crude oil purchasers requested a larger oil allowable factor for February. Two requested a small one, and five proposed to keep the January factor of 67.5 percent of potential. The U. S. Bureau of Mines predicted demand in February would be 3,530,000 barrels a day, or 10,000 less than January.

MARIJUANA PENALTY DROP SUGGESTED — Two Texas task forces looking into problems of children and youth in preparation for a White House conference recommended the penalty for first offense possession of limited amounts of marijuana should be reduced.

The groups advised Gov. Preston Smith the penalty should be lowered from felony to misdemeanor status.

A total of 264 recommendations were made to Smith covering 16 areas of exploration by the steering committee.

Other proposals included:

- Mandatory sex education in public schools as early as possible.
- Opposition to capital punishment.
- Repeal of abortion laws.
- State funds for low cost housing.
- Drug education starting with

kindergarten or at first grade level.

DEMOCRATS IN QUANDARY — Just about the time a controversy over party rules appeared to be settled, Democrats found themselves with a leadership dispute on their hands.

State Democratic Executive Committee Chairman Roy Orr of DeSoto accepted appointment as a Dallas County Commissioner, setting the stage for the new wrangle.

Secretary of State Bob Bullock said he would not issue a certificate of appointment as a commissioner to Orr until he resigned his SDEC place because election duties of the two offices may prove incompatible.

Orr was quoted as saying he would resign, then that he wouldn't, then that he might in 30 days and again that he

wouldn't.

Meanwhile, Gov. Smith asked William R. Anderson Jr. of Corpus Christi to seek the chairmanship. Anderson said he would agree to be a candidate, if and when Orr vacated the job.

RETROACTIVE PAY APPROVED — State employees and school teachers will receive retroactive pay increases for the September 1–November 13 period in mid-February.

The extra money represents pay raises approved by the 62nd legislature but stalled during the presidential wage-price freeze.

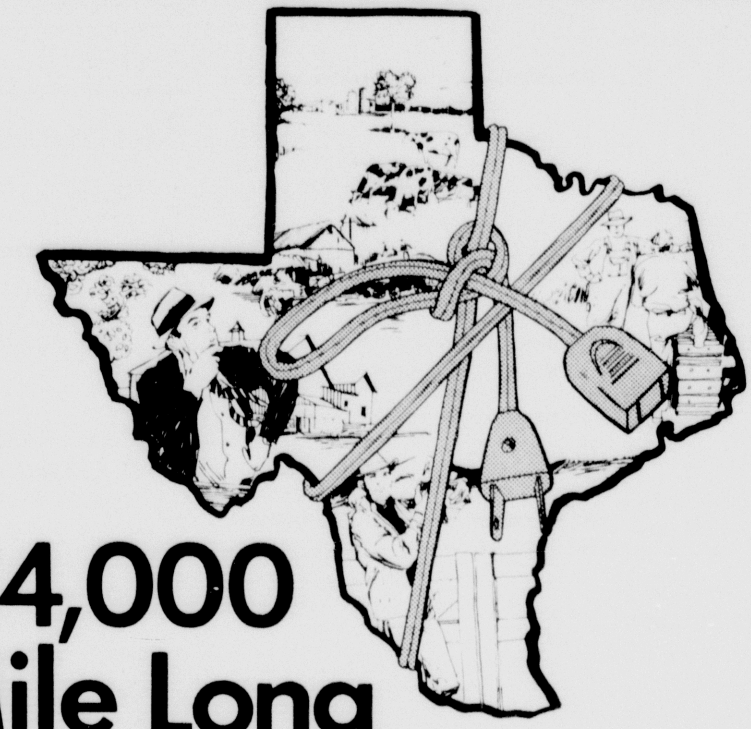

State officials have notified the federal pay board of intentions to go through with the raises that would have been granted September 1 had the freeze not been in effect. Since the pay board has until February 1 to challenge

payments, Comptroller Robert S. Calvert said he would not accept retroactive payrolls until February 2.

HOG CHOLERA ATTACK PLANNED — State and federal animal health officers plan to send a task force of inspectors into South Texas to try and destroy the virus which causes cholera in hogs.

Texas Animal Health Commission drafted stringent quarantine rules to restrict movement of breeder and feeder hogs in 54 counties to stop spread of the disease.

Success of the operation, according to Dr. E. S. Cox of the U. S. Department of Agriculture animal and plant health services division, could mean complete elimination of the virus in the U. S. Dr. Cox said the virus is not known to exist in this country outside South Texas.

Neinda Philosopher Likes New Rule Allowing You to Cut Off Other's Phone

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One says he has discovered a new law.

Dear editor:

As I understand it, the way civilization works is, first you invent something to make life easier, like the automobile, then you wonder what to do with it when it becomes the unbearable nuisance anybody who

was ever caught in a traffic jam will tell you it is.

Or take the telephone. The telephone is a fine thing when you need to use it, but it can ring at some of the worst times.

Therefore I was pleased to read in a newspaper last night right after my phone rang and it was a wrong number that a man in Maine is asking the Federal Communications Commission to cut off the phone service of a

credit company that has been hounding him.

I didn't know this, but a new rule allows the Commission to disconnect a loan company's phone if it uses interstate telephone lines for harassment.

This is a splendid idea and there must be millions of parents of teen-age children who'll be looking into this law as soon as they find out about it.

But the law ought to be expanded. For example, why couldn't it cover the mail too?

Say the tax collector is hounding you with delinquent tax notices. Why shouldn't a man have the right to ask the Federal Communications Commission to stop him from using the mail? I don't know of anything more harassing than a tax notice.

Getting mail is one of the pleasures of life if the letter is from somebody you're interested in or has a check in it, but using the mail or the telephone to harass somebody just because he owes you, that's carrying civilization too far and ought to be stopped just as soon as I wind up collecting the few bills people owe me.

Yours faithfully, J. A.

Wheat Producers Offered Additional Set-aside Option

Wheat producers are being offered an additional option to voluntary set-aside wheat cropland in 1972. Since the 1972 wheat program was announced on July 16, 1971, wheat export prospects have dimmed with the uncertainty of the dock strikes. In addition, farmers harvested a large 1971 crop.

To meet these changed conditions, the U. S. Department of Agriculture has authorized additional voluntary set aside of wheat cropland equivalent up to 75 percent of a farm's domestic allotment, in a move aimed at preventing excessive production of wheat in 1972.

The payment rate will be 94 cents per bushel times the farm's established yield times the acreage voluntarily set aside.

The 1972 national domestic wheat allotment is 19.7 million acres, and the required set aside acreage necessary to qualify for program participation is 83 percent of the farm domestic allotment—the maximum provided by law.

Target of the voluntary set aside acreage program announced is a reduction of possibly five to six million acres in the 1972 harvest.

Producers of winter wheat,

who already have planted their 1972 crop on 42.2 million acres, can designate acreage for set aside if it is acreage planted to wheat and the growing wheat is of average quality for the farm.

The planted winter wheat cropland voluntarily set aside from production in 1972 can be used for grazing or otherwise disposed of by the certification dates established by the State ASC Committee or, if pastured, by the beginning of the non-grazing periods for the set aside acreage.

This is in accordance with the Agricultural Act of 1970, and is the same procedure followed in previous program years.

In the winter wheat area, producers at program signup time will need to designate the acreage involved. Spot checks of the acreage will begin immediately following signup.

Sign-up for all set-aside programs will begin February 3 and end March 10, 1972, according to a recent change.
